

Program overview

Studio Campo designs and delivers educational programming and facilitation across Northern and Central Italy. Programs are planned in detail and run by real educators, in Italian, English, and multilingual formats. This page is the short version — the four lanes we work in, who runs them, and how to start.

I QUATTRO PROGRAMMI

The four programs

Educational Camps & Holiday Programs

Structured, multilingual days for children and young people, from school summer camps to holiday weeks. Learning blocks, outdoor time, project work, clear supervision.

Retreat & Event Programming

Educational and family-facing programming for retreats, villas, off-sites, and private gatherings. Reliable, discreet, and run alongside the host's own program.

Institutional Facilitation & Workshops

Multilingual workshops, moderation, and facilitated sessions for schools, organizations, and teams. Includes an AI-literacy strand for educators and small organizations.

Children & Family Engagement

Well-run activities and hosted learning for families, guests, and multigenerational groups. For villa and hotel hosts and international families.

CHI GUIDA LO STUDIO

Who runs it

The studio is led by its founder — a qualified educator with formal teaching qualifications and a background in economics, with yoga teacher training and years of facilitation practice, working between Italian and English in Italy. A small team of collaborators is brought in as engagements confirm them; we name collaborators when they have a role, not before. Programs run from written plans, with supervision ratios, consent and safety practices, and appropriate insurance in place.

FORMATI E LINGUE

Formats & languages

Example formats: half-day workshop · full-day program · multi-day camp · retreat residency.

Languages: Italian, English, and multilingual formats.

COME INIZIARE

How to inquire

Email us with who you are, your dates, group size and ages, languages, and venue if you have one. We'll reply with the right format and next steps. Every engagement starts as a conversation, in English or Italian.
